- (f) **Continuance of Public Hearing.** The body conducting the public hearing may by motion continue the public hearing, even in the absence of a quorum, to a fixed date, time and place, and no further notice shall be required as prescribed by law.

601.06 Scope of Approvals

- (a) **Scope.** An approval permits only those uses and activities actually proposed in the application, and excludes other uses and activities. The approved use and/or construction is subject to, and shall comply with, all applicable city ordinances and laws and regulations of other governmental agencies. Unless otherwise specified therein, any approval terminates all other uses at the location subject to the approval.
- (b) **Conditions of Approval.** Unless otherwise specified or required by the Zoning Administrator or City Council, the site plan, floor plans, building elevations and/or any additional information or representations indicating the proposed structure or manner of operation submitted with an application or submitted during the approval process or by minute order shall be deemed conditions of approval. Any approval may be subject to requirements that the permittee guarantees, warranties or insures that he will comply with permit's plans and conditions in all respects.
- (c) **Actions Voiding Approval.** If the construction of a building or structure or the use established is contrary to the description or illustration in the application, so as to either violate any provision of the Ordinance or require additional permits, then the approval shall be deemed null and void.
- (d) **Periodic Review.** All approvals may be subject to periodic review to determine compliance with the permit and applicable conditions. If a condition specifies that activities or uses allowed under the Conditional Use Permit are subject to periodic reporting, monitoring or assessments, it shall be the responsibility of the permit holder, the property owner or successor property owners to comply with such conditions.

601.07 Effective Dates

A final decision on an application for any Zoning Administrator approval is subject to appeal and shall not become effective until after the expiration of the ten (10) day appeal period following the date of action. No building permit or business license shall be issued until the eleventh (11th) day following the date of the action.

601.08 Expiration and Extension

- (a) **Expiration.** The City Council, in the granting of any permit, or the Zoning Administrator, in the granting of any application, permit modification, or adjustment, may specify the time within which the proposed use must be undertaken and actively and continuously pursued. The City Council or Zoning Administrator may impose upon the permit a term of such period of time as is found to be consistent with the purposes of the use and necessary to safeguard the public safety, health and welfare. If no time period is otherwise specified, any permit granted under this Ordinance may be declared lapsed and of no further force and effect if it is not exercised or extended within two (2) years of its issuance.
- (1) A permit for the use of a building or a property is exercised when, if required, a valid City business license has been issued, and the permitted use has commenced on the property.
- (2) A permit for the construction of a building or structure is exercised when a valid City building permit, if required, is issued, and construction has lawfully commenced.
- (b) **Extensions.** The City Council may approve a one (1) year extension of any permit or approval granted under this Ordinance upon receipt of a written application with the required fee before the permit expires.

601.09 Modification of Approvals; Changed Plans

- (a) **Modifications of Approvals.** The Zoning Administrator may approve minor modifications to approved plans that are consistent with the original findings and conditions approved by the City Council and would not intensify any potentially detrimental effects of the project.
- (b) **Changed Plan.** A request for changes in conditions of approval of a discretionary permit or a change in an approved site plan or building plan that would affect a condition of approval shall be treated as a new application, except that such changes determined to be minor, in the opinion of the Zoning Administrator, may be approved by the Zoning Administrator.

601.10 Revocation of Approvals

Any permit granted under this chapter may be revoked or modified if any of the conditions or terms of such permit are violated or if any law or ordinance is violated in connection therewith. Notwithstanding this provision, no lawful residential use can lapse regardless of the length of time of the vacancy.

- (a) **Initiation of Proceeding.** The City Council, by its own action, or following a recommendation from the Zoning Administrator, may initiate revocation or modification proceedings.
- (b) **Public Notice.** The Zoning Administrator shall give notice of the hearing before the City Council pursuant to the requirements of Section 601.05, Public Notification.

- (c) **Public Hearing.** The public hearing regarding the revocation or modification of a Conditional Use Permit or Variance shall be conducted in the same manner as for Conditional Use Permits pursuant to Chapter 604, Conditional Use Permits.
- (d) **Decision of the City Council.** The City Council may revoke the permit if it makes any of the following findings:
 - (1) That approval was obtained by means of fraud or misrepresentation of a material fact;
 - (2) That the use in question has ceased to exist or has been suspended for one (1) year or more;
 - (3) That there is or has been a violation of or failure to observe the terms or conditions of the permit or Variance, or the use has been conducted in violation of the provisions of this Ordinance, law or regulation; or
 - (4) That the use to which the permit or Variance applies has been conducted in a manner detrimental to the public safety, health and welfare, or so as to be a nuisance.

601.11 Appeals

All final decisions of the Zoning Administrator may be appealed to the City Council pursuant to Chapter 612, Appeals.

Sections:

- 603.01 Purpose
- 603.02 Applicability
- 603.03 Decision-Making Authority
- 603.04 Procedures
- 603.05 Appeals, Expiration and Extensions

603.01 Purpose

This chapter describes the process and general requirements applicable to those uses for which a Hillside Development Permit or an Administrative Hillside Development Permit is required by this Ordinance. These uses require special consideration to ensure that they can be designed, located, and operated in a manner that will not interfere with the use and enjoyment of surrounding properties. The process for review of Hillside Development Permit and Administrative Hillside Development Permit applications is designed to evaluate possible adverse impacts and to minimize them where possible through the imposition of specific conditions or requirements. Approval of a Hillside Development Permit or an Administrative Hillside Development Permit requires careful review of the location, design, configuration, and special impacts of a proposed use to determine, against standards and criteria, the desirability of permitting its establishment on a particular site.

- (a) **Hillside Development Permits.** No person shall grade, erect, or construct into, over or on top of property within the HZ Overlay District without first obtaining a Hillside Development Permit, except as otherwise provided for in this chapter.
- (b) **Administrative Hillside Development Permits.** If no other development permits are required by this Ordinance or other provisions of the Municipal Code, then the property owner or duly authorized agent may submit an application for an Administrative Hillside Development Permit.

603.02 Applicability

This chapter is applicable to uses or developments on properties within the incorporated boundaries of the City of Porterville, as well as those properties within the City's official Sphere of Influence, as may be amended from time to time, that are designated Hillside Development Zone on the General Plan Land Use Diagram, except the activities listed below:

- (a) Construction that does not require a grading permit or a building permit.
- (b) The construction and installation (trenching, utility construction, and backfilling) of underground utility systems.

- (e) Additions to existing structures and/or construction of accessory structures located entirely on the existing pad area and are less than five hundred (500) square feet in area, unless a grading permit for establishment of same is required.

- (c) **Referral of Application to City Council.** The Zoning Administrator or designee may, at his or her discretion, refer an application for an Administrative Hillside Development Permit to the City Council for a decision rather than acting on it individually. In this case, the application shall be processed as a Hillside Development Permit.

603.04 Procedures

- (a) **Filing.** Written applications for Hillside Development Permits or Administrative Hillside Development Permits shall be filed with the Community Development Department in accordance with the application procedures in Chapter 601, Common Procedures.
- (b) **Review Procedures.**
 - (1) The Zoning Administrator shall review all applications within thirty (30) days to determine if they are complete as provided for in Chapter 601, Common Procedures.  - (2) After determining that an application is complete, the Zoning Administrator shall review the application for compliance with the applicable HZ Overlay District requirements.
 - (3) After determining that an application is complete, if it is not exempt from environmental review, the Zoning Administrator shall conduct the hillside development review process concurrently with the required environmental review. When a project requiring review by the City Council is subject to

environmental review, the Zoning Administrator shall submit the proposed Negative Declaration or Environmental Impact Report to the City Council for review and action pursuant to CEQA requirements before the City Council takes action on the hillside development application. The application for a Hillside Development Permit should be processed concurrently with the appropriate environmental document.

(4) ***Hillside Development Permit***

- a. The Zoning Administrator shall prepare a report and recommendation.
- b. If an application is exempt from environmental review and does not otherwise require a hearing by the City Council, a public hearing shall be held before the City Council within thirty (30) days of the date the application is deemed complete.

If the City Council determines that it is not possible to make all of the required findings, the application shall be denied. The specific basis for denial shall be established for the record.

- (a) Approval of the proposed project will advance the goals and objectives of and is consistent with the policies of the General Plan and any other applicable plan that the City has adopted; and

605.02 Applicability

Temporary Use Permit approval is required for temporary uses as described in Section 301.19, Temporary Uses. The Zoning Administrator may approve an application for a Temporary Use Permit to allow a temporary use for a period of time, only upon making all of the following findings:

- (a) The proposed use will not unreasonably affect adjacent properties, their owners and occupants, or the surrounding neighborhood, and will not in any other way constitute a nuisance or be detrimental to the health, safety peace, comfort, or general welfare of persons residing or working in the area of such use or to the general welfare of the City;
- (b) The proposed use will not unreasonably interfere with pedestrian or vehicular traffic or circulation in the area surrounding the proposed use, and will not create a demand for additional parking that cannot be safely and efficiently accommodated by existing parking areas; and

- (c) Appropriate controls are in place that will ensure the premises will be kept clean, sanitary, and free of litter.

605.05 Conditions of Approval

In approving a Temporary Use Permit, the Zoning Administrator may impose any conditions reasonably related to the application and deemed necessary to achieve the findings for a Temporary Use Permit listed in Section 605.04 above.

Chapter 606 Variances

Sections:

606.01	Purpose
606.02	Procedures
606.03	Required Findings
606.04	Use Variances Prohibited
606.05	Conditions of Approval
606.06	Decision; Expiration and Extensions; Modifications

606.01 Purpose

This chapter is intended to provide a mechanism for relief from the strict application of this Ordinance where strict application will deprive the property owner of privileges enjoyed by similar properties because of the subject property's unique and special conditions. Variances may be granted with respect to dimensional and performance standards, but Variances from the use regulations of this Ordinance are not allowed.

606.02 Procedures

- (a) **Application.** Applications for Variances shall be filed in accordance with Chapter 601, Common Procedures. In addition to any other application requirements, the application for a Variance shall include data or other evidence supporting the proposed variance.
- (b) **Public Notice and Hearing.** All applications for Variances shall require public notice and a hearing before the City Council pursuant to Chapter 601, Common Procedures.

606.03 Required Findings

A Variance shall only be granted if the City Council makes all of the following findings:

- (a) There are special circumstances or conditions applicable to the property such as its size, shape, topography, location, surroundings, or existing structures, which do not apply generally to uses, land or structures in the vicinity and same zoning district;
- (b) Due to the special circumstances applicable to this property, strict application of the respective zoning regulation would deprive the property owner of privileges enjoyed by other property owners in the same zoning district;
- (c) Special circumstances applicable to the property were or are not self-imposed by the property owner; and
- (d) The authorization of the Variance will substantially meet the intent and purpose of the zoning district in which the subject property is located and will not be detrimental to persons residing or working in the vicinity, to adjacent property, to the neighborhood, or the public welfare in general.

606.04 Use Variances Prohibited

The City Council shall not approve any changes in the uses permitted in any zoning classification or zoning district or approve any modification of the requirements of this Ordinance that would have the effect of allowing the establishment of a use not otherwise permitted. This restriction shall not affect the authority otherwise to grant Variances pursuant to this chapter.

606.05 Conditions of Approval

- (a) In approving a Variance, the City Council may impose reasonable conditions necessary to insure that the Variance shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which the subject property is located.

606.06 Decision; Expiration and Extensions; Modifications

- (a) **Decision.** The decision of the Council shall be final. The Zoning Administrator shall cause a copy of its resolution to be mailed to the applicant within ten (10) days from the date of adoption thereof.
- (b) **Expiration and Extension.** Variances are effective and may only be extended or modified as provided for in Chapter 601, Common Procedures.

However, an application for a General Plan amendment is not considered to be a Development Project and so the approval of any associated discretionary permit shall not be subject to the time limits specified in State Law for

processing such applications until the Council approves the General Plan amendment and any necessary amendments to this Ordinance.

608.05 Review of Application and Determinations by Zoning Administrator

After determining that an application is complete and environmental review has been conducted, the Zoning Administrator shall prepare a report and recommendation to the City Council on the application for a zoning amendment.

609.01 Purpose

The purpose of this chapter is to provide a mechanism that assures the applicant of a development project that upon approval, the applicant may proceed with the project in accordance with existing policies, rules and regulations, and conditions that were applicable at the time of project approval, and in a manner consistent with Section 65864 et seq., of the Government Code.

609.02 Objective

The objective of a development agreement is to strengthen the public planning process, encourage private participation in comprehensive planning, reduce the economic costs of development and promote the construction of public improvements by the private sector by providing for provisions in the agreement whereby the applicant is reimbursed over time for the financing of the public improvements.

609.03 Requirements

To enter into a development agreement, the City shall find that:

- (a) A person has a legal or equitable interest in real property for the development of such property; and
- (b) The development project is consistent with the General Plan and any applicable specific plan.

609.04 Contents

A development agreement shall specify the duration of the agreement, the permitted uses of the property, the density or intensity of use, the maximum height and size of proposed buildings, and provisions for reservation or dedication of land or facilities for public purposes. The development agreement may include conditions, terms, restrictions, and requirements for subsequent discretionary actions, provided that such conditions, terms,

restrictions, and requirements shall not prevent development of the land for uses and to the density or intensity of development set forth in the agreement. The agreement may require that construction shall be commenced within a specified time and that the project or any phase thereof be completed within a specified time.

609.05 Application

An application for a development agreement shall be made to the Zoning Administrator on a form prescribed by the department. The application shall be accompanied by a fee set by resolution of the City Council and will be processed in conjunction with other associated discretionary permits.

609.06 Hearings and Notice

Upon receipt of a development agreement application, the Zoning Administrator shall initiate and notice the public hearing pursuant to the provisions of Chapter 601, Common Procedures.

609.07 Report and Findings

The Zoning Administrator shall prepare a report on the development agreement application and provide a recommendation to the City Council based on the following findings:

- (a) The project is consistent with the General Plan and any applicable specific plan.
- (b) The project is authorized by the Ordinance as it relates to use and development standard regulations.
- (c) The project will not be detrimental to the public health, safety and general welfare.
- (d) The project will provide sufficient benefit to the city to justify entering into the development agreement.
- (e) The project will not have a significant impact on the environment.

609.08 Action of City Council

Following a public hearing, the City Council shall consider staff's recommendation and shall take action on the development agreement. The Council can approve, approve with modifications or deny the development agreement. If the Council approves or approves with modification the development agreement, it shall initiate proceedings to adopt an Ordinance. After the Ordinance takes effect, the city may enter into the agreement with the applicant.

609.09 Initiation of Amendment or Cancellation

Either party may propose an amendment to or cancellation in whole or in part of the development agreement previously entered into. If proposed by the applicant, the procedure shall be the same as the procedure for entering into an agreement. However, where the City Council initiates the proposed amendment to or cancellation of the development agreement,

it shall first give at least thirty days notice to the applicant of its intention to initiate such proceedings in advance of giving notice of the public hearing.

609.10 Recordation

- (a) Within ten (10) days after the City enters into the development agreement, the City shall have the agreement recorded with the County Recorder.
- (b) If the parties to the agreement or their successors in interest amend or cancel the agreement, or if the City terminates or modifies the agreement for failure of the applicant to comply in good faith with the terms or conditions of the agreement, the city shall have notice of such action recorded with the County Recorder.

609.11 Review

- (a) The Zoning Administrator shall review the development agreement at least once every twelve months from the date the agreement is entered into. The Community Development Department shall report the findings to the City Council. The time for review may be modified by agreement between the parties.
- (b) Should the Zoning Administrator find that the developer is in noncompliance or not performing consistent with the development agreement, the director shall report this finding to the City Council. The City Council may terminate the development agreement consistent with Chapter 609.09, Initiation of Amendment or Cancellation

Chapter 610 Adjustments

Sections:

610.01	Purpose and Applicability
610.02	Procedures
610.03	Required Findings

610.01 Purpose and Applicability

This chapter establishes a process for making and acting upon requests for reasonable accommodation to provide an alternate means of granting relief from this Ordinance's requirements when so doing would be consistent with the Ordinance's objectives. It is the policy of the City to comply with the Federal Fair Housing Act, the Americans with Disabilities Act and the California Fair Employment and Housing Act to provide reasonable accommodation by modifying the application of its zoning and subdivision regulations for persons with disabilities seeking fair access to housing. This chapter authorizes the Zoning Administrator to grant administrative relief from the Ordinance's dimensional requirements to achieve these and other objectives and also allows the City Council to grant adjustments when necessary to accommodate uses protected by State or federal law.

610.02 Procedures

- (a) **Application.** An application for relief shall be filed with the Zoning Administrator in accordance with Chapter 601, Common Procedures. The application shall state in writing the nature of the adjustment requested and explain why the findings necessary to grant the exception are satisfied. The applicant shall also submit plans delineating the requested adjustment.
- (b) **Relief Granted by the Zoning Administrator.** The Zoning Administrator may grant relief from the dimensional requirements specified in this Ordinance to the following extent:
 - (1) **Setbacks.** Front and rear yard setback adjustments not exceeding two (2) feet. Side yard setback adjustments not exceeding one (1) foot.
 - (2) **Building Site Coverage.** Building site coverage adjustments not exceeding five (5) percent.
 - (3) **Height.** Maximum building height or other height limitations not exceeding five (5) feet.
- (c) **Referral to City Council.** The Zoning Administrator may refer to the City Council any request for an adjustment necessary to comply with the reasonable accommodation provisions of federal law based on a determination that there is a compelling public interest requiring such an accommodation.
- (d) **Concurrent Processing.** If a request for relief is being submitted in conjunction with an application for another approval, permit, or entitlement under this

Ordinance, it shall be heard and acted upon at the same time and in the same manner as that application.

610.03 Required Findings

- (a) **Findings for Approval.** A decision to grant an adjustment shall be based on the following findings, supported by information in the record:
 - (1) The adjustment is necessary due to the physical characteristics of the property and the proposed use or structure or other circumstances, including, but not limited to, topography, noise exposure, irregular property boundaries, or other unusual circumstance;
 - (2) The granting of the requested adjustment would not be detrimental to the health or safety of the public or the occupants of the property or result in a change in land use or density that would be inconsistent with the requirements of this Ordinance; and
 - (3) The granting of the adjustment will substantially meet or advance the intent and purpose of the zoning district in which the subject property is located.
- (b) **Additional Finding for Reasonable Accommodations.** If the adjustment requested is to provide reasonable accommodation pursuant to federal or State statute, the responsible decision-maker must find that denial of the requested adjustment would impose a substantial burden on religious exercise or would conflict with any federal or State statute requiring reasonable accommodation of persons with disabilities.

Chapter 611 Environmental Review

Sections:

611.01	Purpose
611.02	Procedures
611.03	Mitigation Monitoring and Reporting Program
611.04	Preparation of Environmental Documents by Consultants

611.01 Purpose

This chapter establishes procedures for conducting environmental review to meet requirements of the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA). These provisions are intended to insure that responsible decision-makers and the public are informed about the potentially significant environmental effects of proposed activities and that environmental review is integrated with the discretionary review provisions that this chapter establishes to promote incorporation of environmental considerations into the design, planning, and review of projects. These procedures apply to all projects sponsored or assisted by the City and to all private projects requiring any discretionary approvals from the City. In the event of a conflict between these environmental review regulations and applicable federal or state regulations or guidelines, the applicable federal or state regulations shall prevail.

611.02 Procedures

- (a) **Filing of Forms.** Concurrent with the submittal of project applications, the applicant shall prepare and file an Environmental Information Form and project plans with the Community Development Department.
- (b) **Preliminary Review.** Within thirty (30) days after receiving an application, the Zoning Administrator shall conduct a preliminary environmental review. As part of this review, the Zoning Administrator will identify issues to help decide if the applicant proposes a project that is subject to environmental review and may require the applicant to submit additional information needed to support this determination.
- (c) **Preparation and Processing Environmental Documents.** A determination of the appropriate level of environmental review by the Zoning Administrator shall trigger the preparation of an environmental document in compliance with the most current regulations and guidelines of the Environmental Quality Act, whether it be exempt from CEQA, require Negative Declaration, Mitigated Negative Declaration or an Environmental Impact Report. Further, in concert with the requirements of an applicable Federal agency(s), the Zoning Administrator will cause to have prepared the appropriate NEPA environmental documentation.
- (d) **Review for Exemption**
 - (1) Determinations of Exemption shall be made within thirty (30) days of the date the application is deemed complete.

- (2) If the Zoning Administrator has determined that a project is exempt from environmental review under CEQA, such determination shall be announced in any required public notice for discretionary permits. The notice shall include a citation to the CEQA Guidelines or CEQA section under which it is found to be exempt.
 - (3) Following approval of a project that is exempt from CEQA review, a Notice of Exemption shall be filed with the County Clerk as provided for in CEQA and the applicable State and City guidelines.
 - (4) A determination of exemption by any decision-making authority other than the City Council may be appealed to the City Council in the same manner provided in Chapter 611, Appeals.
- (e) **Initial Study.** If the proposed project is subject to CEQA and is not exempt from environmental review, an Initial Study shall be prepared in compliance with CEQA and Local CEQA Guidelines.
- (f) **Determination of Environmental Significance.** Based on the Initial Study, the Zoning Administrator will make one (1) of the following findings:
- (1) The project will have "No Significant Impacts" on the environment, and a Negative Declaration will be prepared;
 - (2) The project has been modified or mitigation measures have been incorporated to mitigate potential environmental impacts to a level of insignificance and a Mitigated Negative Declaration will be prepared; or
 - (3) The proposed project will have, or may have, significant impact(s) that may not be mitigated, and an EIR will be required.
- (g) **Environmental Determination.** If the Zoning Administrator has determined that the proposed project will not have a significant effect on the environment, a Negative Declaration shall be prepared for public review in conformance with the requirements of CEQA and applicable State and City environmental review guidelines.
- (h) **Public Notice of Environmental Determination.** The Zoning Administrator shall provide public notice of the proposed environmental determination in a newspaper of general circulation, at City Hall, and with the County Clerk.

611.03 Mitigation Monitoring and Reporting Program

- (a) **Program Contents.** The City shall approve a Mitigation Monitoring and Reporting Program (MMRP) for all projects that it approves with a Mitigated Negative Declaration or in conjunction with certification of a Final EIR and compliance with CEQA.
- (b) **Enforcement.** Failure to comply with the conditions and requirements of an approved MMRP shall be considered a violation of the conditions of approval of a project. Such violations shall be subject to enforcement in accordance with the provisions of Chapter 614, Enforcement.

- (c) **Modification of Mitigation Program Not Permitted Following Adoption.** Unless specifically authorized or required by the conditions of project approval, neither CEQA nor this chapter authorize the City to modify or add mitigation measures if the monitoring program shows that the mitigation measures have not achieved the desired result.

611.04 Preparation of Environmental Documents by Consultants

If the City Planning Division is unable to prepare an environmental document or technical study for a public or private project, the City shall contract with a qualified consultant for preparation of the appropriate environmental documents including technical studies. The City has undertaken the negotiation of and maintains an on-call environmental consultant for use on City projects with defined funding sources, and for use by private development proponents in the event they desire to streamline the process. In such cases, the City, and consultant shall prepare an agreement for preparation of and to specify the details of the necessary environmental studies and documents.

The applicant is responsible for the full cost of the services. The full negotiated cost of service plus ten (10) percent for contingencies shall be placed on deposit with the City prior to authorizing work to begin on the environmental documents. The Zoning Administrator shall be the authority to require payment to the City of a ten (10) percent administrative fee in cases where the cost of administering the contract is likely to exceed the adopted fee for environmental reviews. The Zoning Administrator shall have the authority to facilitate the consultant selection process, to select the consultant, and to negotiate fees for services. The process for selecting an environmental consultant shall be as follows:

- (a) Staff will prepare a Request for Proposals (RFP) soliciting project specific proposals from qualified consultants as represented in a consultant services file and as posted by the purchasing agent;
- (b) Staff will evaluate the proposals relative to responsiveness and pursuant to the consultant selection criteria currently used in the City;
- (c) Staff may elect to interview the consultant to determine additional qualifications and ability to represent the City's interest in a public forum;
- (d) Staff will prepare a consultant services agreement and the Zoning Administrator will sign following submittal of the necessary funds and contingencies by the project proponent; and
- (e) Staff will send the deposit to the finance department and request the establishment of a pass through account and will set up a purchase order for monthly invoice payments.
