

Highlights

Population Growth: The population of Porterville grew by 37% in the last decade to 54,000, far outpacing the statewide growth rate of 10%. An increase of 14,000 in the Hispanic population accounts for almost all of the growth.

Diversity: Porterville now has a majority Hispanic population, at 62% of the total, up from 49% in 2000. The white, non-Hispanic share of population decreased from 42% to 30% of the total over the same period.

Age Structure: Porterville is young by California standards,

with a median age of 29, compared to the statewide median age of 35. The Hispanic population is younger than the white, non-Hispanic population. Young people make up 45% of the Hispanic population, compared with 23% of white, non Hispanics. In addition, only 4% of Hispanics are age 65+, compared with 20% of white, non-Hispanics.

Education: Porterville's educational attainment is lower than the state's; 33% of adults in Porterville have not completed high school, compared with 20% of adults statewide. Only 12% of adults in Porterville have a Bachelor's degree or higher, compared with 30% of adults in California.

Income: Households in Porterville have lower incomes than do households statewide. Median household income is \$38,000, just 63% of the state median income. In addition, 32% of households have income of less than \$25,000, compared with 20% in California.

This demographic profile is part of a series of library jurisdiction profiles prepared for the California State Library by the Stanford Center on Longevity. The project, "Understanding California's Shifting Demographics," was supported in whole by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
